

ROYAL Baking Powder

The strongest, purest, most efficient and wholesome of leavening agents. Not lowest in price, yet the most economical; indispensable to all who appreciate the best and most healthful food.

Our country is enjoying prosperity almost unsurpassed in its history.

For every one there is money enough to buy that to eat which is pure, sound, good, wholesome.

Why should we use cheap, impure, unhealthful articles of food? There is no economy in them; they endanger the health, they may cost life. There are reported almost daily cases of sickness caused by eating cake, puddings or biscuit made with the cheap, alum baking powders.

In all articles for food buy and use only the best. The good health of the family is of first consideration.

Alum is used in many baking powders because it makes them cheap. It costs less than two cents a pound. Alum is a corrosive poison. Think of feeding it to children! Yet the manufacturers of well-known alum powders are actually denying that their goods contain it.

Mrs. Catherine Case and her daughter, Mrs. Mattie Hank, spent last Sunday with Mr. and Mrs. Allan Cooper near Orangeburg.

The farmers are all smiles. For the past few days everything has been looking so promising in their behalf, while the industrious wife can go to the garden and get the rhubarb, asparagus, kale and new onions to help to replenish her dinner-table when the boys come in hungry and tired.

Quite a large crowd gathered at the home of Mrs. Sedden to pay the last tribute of respect to Grandmother Wise, who will be greatly missed by all who knew her.

Mrs. Amanda Jones of Walnut Hills, Cincinnati, who was called here by the death of her mother, Mrs. Wise, will spend a few days with her sister, Mrs. Sedden. They have the sympathy of the entire community in their sad bereavement.
